## DATA SHEET CEMENT PAINT

LIFESTYLE CEMENT PAINT is a durable pigmented cementitious paint requiring only the addition of clean drinking water. Based on Portland cement, it contains both weather, ultra violet resistant chemicals and self-curing properties.

### PAINTING DIRECTLY ONTO BLOCK BRICK OR SIMILAR WALLS

To provide a durable economic water resistant coating direct onto block brick or similar walls eliminating the need for plastering. LIFESTYLE CEMENT PAINT can also be painted onto acrylic painted surfaces.

### METHOD OF APPLICATION

1. Thoroughly wet down walls to be painted (not previously painted surfaces).
2. Mixing: COARSE: Add 9 liters of clean drinking water to a 25 litre bucket (please note that you may need to add an extra litre of water depending on the consistency of the paint mixture ie. Dark colours and extreme heat)
3. Add 25kg LIFESTYLE CEMENT PAINT powder to water and mix thoroughly using LIFESTYLE PADDLE MIXER to a lump free creamy consistency.
4. Allow to stand for 10 minutes (paint will have a gel like consistency) stir paint.
5. Use a large soft block brush, apply liberally with wind screen wiper movements.
6. Agitate paint at least every 15 minutes to ensure consistency.

### PAINTING ONTO EXTERNAL PLASTER SURFACES

On these surfaces there is always a difference in suction i.e. Between board and joints and on renovated walls between paint and raw plaster. For these applications slurry entire surface with slurry kit to even suction.

### CURING ONTO EXTERNAL PLASTER SURFACES

Although LIFESTYLE CEMENT PAINT is self curing, it is recommended that to achieve a fast hard finish especially externally in hot dry conditions, the painted surface should be wet down three times during the day after application. This will also help achieve an aged weathered look sooner.

Coverage: COARSE: 40-45m<sup>2</sup> onto raw-plaster  
Colours: 24 awesome colours.  
Shelf Life: 6 months - Store in dry cool conditions and ensure bag is properly sealed.  
Cleaning of Tools: Clean tap water.

### HEALTH AND SAFETY

This product contains fine cement and aggregates. Avoid inhalation. Contact with product may cause irritation to sensitive skin. Wear suitable protective clothing, eye/face protection. In case of insufficient ventilation, wear suitable respiratory protection.

### FIRST AID

Eyes: Do not rub. Immediately flush with plenty of water.  
Skin: Wash thoroughly with soap and water.  
Wash thoroughly immediately after handling.

**DO NOT TAKE INTERNALLY**  
**KEEP OUT OF REACH OF CHILDREN**  
**THIS PRODUCT IS NONFLAMMABLE**
