WEDGEWOOD OPULENT 2 IN 1 (cont.)

SURFACE PREPARATION (cont.):

- Prime with one or two coats **Wedgewood Opulent 2 in 1** water based primer/topcoat.
- Apply two or three coats from the **Wedgewood Opulent** range, depending on colour.
- Fill defects with **ProLong Crackfill** or **ProLong Profill**, as part of the preparation.
- Mould/Algae. Remove by scrubbing with a solution of 4:1 Water/Bleach or Water/Chlorine. Saturate affected areas and allow to stand for a minimum of 4 hours. Rinse off thoroughly with clean water and allow to dry before painting.

APPLICATION:

Apply one or two coats, un-thinned to prepared surfaces, so as to achieve complete obliteration.

CAUTIONS:

- Avoid painting during inclement weather or if temperature is below 10°C.
- For optimum performance a practical recommended spreading rate of 6 m² / l should not be exceeded.
- Do not tint to deep or very deep colours as this will affect coating performance.
- It is very important to purchase sufficient paint to complete the project. Different batches may result in slight variations in colour that are beyond the control of the manufacturer.
- Do not apply to concrete or plaster substrates that contain more than 12% moisture.
- It is recommended that solvent based **Opulent Bonding Liquid** is used as a primer on Rhinolite.

SAFETY PRECAUTIONS:

- Keep out of reach of children.
- Ensure good ventilation during application and drying.
- In case of skin contact, wash with soap and water or a recognized skin cleaner. Avoid contact with eyes. In case of contact with eyes rinse immediately with plenty of water and seek medical advice if symptoms persist. If ingested give plenty of water / milk. Do not induce vomiting. Seek medical attention.
