PRO-SHIELD

Rubberised Coating for Waterproofing
and Roofing Applications

- Exceptional elongation and elastic recovery
- Excellent obliteration and high build
- Heavy-duty water based coating
- Superior weather resistance
- Excellent adhesion
- UV Resistant
- APEO Free

PRO-SHIELD

Rubberised Coating for Waterproofing and Roofing Applications

PRO-SHIELD IS SUITABLE FOR:

WATERPROOFING: Roofs, parapet walls, roof bolts, flashings, roof joints, wall and chimney cappings. Pro-Shield provides a joint-free, seamless waterproofing coating which seals joints and fine cracks.

ROOF COATING: Pro-Shield is a pure acrylic, high build, durable, weather resistant, UV stable roof coating with an attractive finish.

CORROSION PROTECTION: Protection against corrosion on suitably prepared and primed Chromadek, Aluzinc, ZincAlume, corrugated iron, galvanised steel and mild steel.

ENCAPSULATION: Protective barrier, which encapsulates and extends the lifespan of your roof.

Pro-Shield is suitable for use on steel roofs, roof tiles, cement, concrete and fibre cement. Easily applied to suitably prepared new or previously painted surfaces, torch-on and acrylic waterproofing.

FEATURES:

Exceptional elongation and elastic recovery.	Does not harden or go brittle over time.	Low VOC.
Excellent adhesion.	Long-term protection.	Lead & APEO free.
Superior weather resistance.	Excellent re-coating properties. Can be top coated or used as a final coat.	UV resistant.
Excellent obliteration and high build.	Attractive sheen finish.	Low maintenance and easily repairable.
Allows for expansion and contraction of the surface.	Pure acrylic polymer waterproof coating.	Shrugs off dirt and easy to clean.

CAUTION: Not suitable for application under tiles or areas of ponding. Not suitable for high traffic areas.

SIZES: 5L and 20L.

COVERAGE:

Parapets, flashings, joints, cappings and roof screws – 3 coats, 1.3 m²/litre per coat.

Pitched Roof Coating – 2 coats, 1.5m²/litre per coat.

Flat Roof Coating – 3 coats, 1.5m²/litre per coat.

ALSO AVAILABLE: PRO-SHIELD BARRIER.

Pro-Shield Barrier is a water based, barrier coat to be applied over bituminous and hard to reach areas (e.g. hairline cracks, corners, recesses). Pro-Shield Barrier encapsulates the bituminous surface, prevents bleed through and improves adhesion.
