

TECHNICAL DATA SHEET

HEAVY DUTY EPOXY PRIMER

DI041

PRODUCT CODE:	HD Primer Red Part A 05LT HD Primer Grey Part A 05LT HD Primer Part B		: HDEPREDO(05) : HDEPGREY (05) : HDEPCAT (05) .		
PRODUCT DESCRIPTION:	A high build, polyamide, cured Heavy Duty Epoxy Primer to be used in conjunction with Dura Epoxy Enamel or Dura Heavy Duty Polyurethane .				
INTENDED USES:	A heavy duty primer for steel and cor solids, and excellent corrosion and cl	gh build (high DFT's), high volume			
	Note: For concrete floor applications, Floorkote is recommended.	, Dura Concrete	e Primer overcoated	with Dura Epoxy Enamel or	
FEATURES:			1		
	Excellent adhesion & corrosion protection				
	Good chemical resistance		Tough and hard once dry		
	Continuous temperature resistance of 92°C		C Weathering: Chalks		
CHEMICAL RESISTANCE:	Very good abrasion resist	ance	Excellent flexib	ility and corrosion resistance	
CHEMICAL RESISTANCE.	Exposure	Splash	h / Spillage	Fumes	
	Acids		Good	Very good	
	Alkalies	(Good	Excellent	
	Solvents	Ve	ery good	Excellent	
	Salt	Ex	kcellent	Excellent	
	Water	Ex	kcellent	Excellent	
	APPEARANCE		Matt		
PRODUCT INFORMATION:	_			(*MIO containing)	
	COLOUR Red Oxide and Grey (*MIO containing). Solution Solution			• • •	
	VOLUME SOLIDS		$50\% \pm 2\%$ (varies by colour).		
	• SG@ 25°C		1.31 – 1.36 (Varies Slightly by colour).		
	RECOMMENDED DFT		MIN.: 60µm MAX: 90µm per coat.		
	 THEORECTICAL COVERAGE 		6.7 m² at 75 μm.		
	 PRACTICAL SPREADING RATE 		9 - 12 m² /L at 50µm (DFT).		
	• VISCOSITY @ 25°C (WHITE) 82 – 88 KU (depending on colour).				
	* Micaceous Iron Oxide				
APPLICATION DETAILS:	MIXING		• •	and hardener (Part B) should be	
	added in a ratio of 1:1 and thoroughly power mixed.				
	METHOD		Brush, mohair roller or airless spray (recommended)		
	THINNING		Dura Epoxy Thinners may be added, depending on the application and the required DFT.		
				•	
	CLEANING:		Dura EpoxyThinners.		
	SUBSTRATE:		Prepared steel and	d concrete.	
	APPLICATION ENVIRONMENT:				
	Surface Te	emp /	Ambient Temp	Relative Humidity	
	Min 10°C or		Vin 10°C or 2°C	Min: 10%	
	above dew	point a	above dew point		
	Max.: 40°C Max.: 40°C Max.: 85%				
	Do not apply when ambier	it or surface ter	mperature is below 1	10 °C, or in inclement weather.	
	DRYING TIME		Touch dry	25 Min @ 25°C	
			Hard dry	6 Hours @ 25°C	
			Hard dry Overcoating	6 Hours @ 25°C 6 Hours @ 25°C 2 Days @ 25°C	

SURFACE PREPARATION:	 Ensure that surfaces are dry, sound, and free of rust, dust, dirt, grease and oil before painting. Degrease with <i>ProLong Grease Devil</i> (for steel and concrete) and rinse thoroughly with clean water. Allow to dry. Remove loose and flaking paint down to a sound substrate and a firm edge by scraping and lightly sanding existing paint to ensure good adhesion. Steel Preparation Recommendation: Grit blast to SA 2 to A 25-50 micron profile. For touch-ups power tool clean to ST3. Concrete: Only apply over new concrete that has been cured for at least 28 days at 50% RH or equivalent. Prepare the concrete by sand blasting, or acid etching (and rinsing), prior to application. Prepare old concrete by sand blasting, or acid etching (and rinsing), prior to application. Ensure that there is no moisture in the substrate before proceeding. The use of a moisture meter is recommended. Altentaively, to test concrete moisture content, cover a section of concrete with a plastic sheet, secure firmly and leave overnight. If there is no moisture trapped between the concrete and plastic sheet, proceed with priming. If moisture prevalent, allow concrete to dry fully before proceeding. 			
APPLICATION:	The HD Epoxy Primer base (Part A) and hardener (Part B) should be added in a ratio of 1:1 and power mixed. Once mixed, use within hours.			
	 Apply product as soon Apply HD Epoxy Print Steel: 1 coat HD Print Concrete, 2 coats of I Allow a minimum of 6 Overcoat with Dura E Coverage/spreading 	roller, airless spray or paint brush. n as possible. mer to the prepared surface so as to achieve the required DFT. mer Grey and 1 coat HD Primer Red is recommended as a guideline. HD Primer Red is recommended as a guideline. hours drying time between coats. Epoxy Enamel or Dura Heavy Duty Polyurethane. rate depends largely on the condition of the substrate being painted hich the product is applied.		
STORAGE AND PACKAGING:	 Store in approved fire store. Store away from direct sun, heat and severe cold. Do not exceed 50°C. Keep containers tightly closed. Shelf life 12 months from date of manufacture, when correctly stored and unopened. 			
	 Pot life 6 hours @ 25 °C Empty containers should be left open in well ventilated area to dry out. 			
	 Do not pour paint down the drain. Brush out unwanted paint on newspaper, allow to dry and dispose of via waste collection. Dry containers can be disposed of via waste collection or recycled via recycling programs. 			
TRANSPORTATION:	This product is classifiable in a act (1996). Flammable.	accordance with transportation and classification of dangerous goods		
	SHIPPING NAME: PACKAGING GROUP: HAZARD CLASS: S.I.N/UN NUMBER:	Paint related material III 3 1307		
SAFETY PRECAUTIONS:				

- Keep out of reach of children.
- Ensure good ventilation during application and drying.
- In case of skin contact, wash with soap and water or a recognized skin cleaner.
- Avoid contact with eyes In case of contact, rinse eyes immediately with plenty of water and seek medical attention.
- Harmful if swallowed. Seek medical attention.
- Refer to Safety Data Sheet (SDS) for complete information. See <u>www.durapaints.co.za</u>

HEAVY DUTY EPOXY PRIMER (Cont.)

DISCLAIMER:

- The recommendations contained herein are given in good faith and are meant to guide the specifier or the user.
- They are based on results gained from our experiences and tests and are believed to be reliable.
- Products are manufactured to stringent specifications under laboratory controlled conditions. No guarantee is implied by the
 recommendations contained herein since conditions of use, method of application and cleanliness of the substrate prior to painting
 are beyond our control. Warranty is restricted to the replacement of defective product and excludes any direct, indirect or consequential
 loss of any nature howsoever caused.
- Technology may change necessitating changes to this Technical Data Sheet (TDS). It is the responsibility of the user to ensure that the latest TDS is being used. See www.durapaints.co.za.
