Go-Line
Marking Systems

A division of Dura Paints

A Market Leader
in Marking Liquids and Machines

All marking liquids comply with the South African legal lead limit of 90ppm or less

Go-Line 30
Machine

INTRODUCTION
Go-Line Marking Systems are the efficient cost effective way to mark out lines on fields for all types of sports, including athletics tracks. **Go-Line 30 Marking Machines** are revolutionising the line marking industry. Hundreds of these machines have been sold over the years. The machines are transportable, robust and easy to use.

FEATURES
- Manufactured in South Africa, by South Africans, for African conditions.
- Manufactured to ISO 9001-2015 standards.
- Charger: Heavy duty 12v 5AMP AC adaptor.
- Battery: 12v 18AH for extended marking. Approximately 8 hours.
- 28L Marking liquid tank.
- 1.75L Wash tank. (Go-Line only)
- Front marking unit as standard. (Go-Line only)
- Heavy duty pneumatic tyres.
- Very low maintenance cost.
- One year guarantee on all machines (T&C's apply).
- Full range of parts and service available.
- **Optional:** Side Marker Extension - allows line marking from either side of the machine.

Go-Supreme
Concentrate

INTRODUCTION
GO-Supreme field marking concentrate boasts the following features and benefits:
Ready for use – convenient, no mess, no fuss, no need to add water. Simply stir and apply.
Designed to spray through any line marking machine without dilution.
Manufactured by South Africans for African conditions.
Packaging has been designed for ease of use across various machine designs in the market (on "container ride on machines" or in machines with tanks).
GO-Supreme saves time and produces great field marking results, improved formulation and hiding performance.
Longer lasting – no need to mark as often.
Does not harm turf.
Improved environmental friendliness – formaldehyde free, low VOC's and no need to add water.

USES: Field marking and temporary demarcation of directional arrows, parking bays and areas for events and festivals. Can be applied to grass, shale, clay, tarmac and dirt surfaces.

BATTERY CARE (To maximise battery life)
- Battery must be fully charged before use.
- Do not allow battery to run completely flat.
- Recharge battery overnight after use.

Athletics
Marker

INTRODUCTION
The **Athletics Marker** can mark 3 parallel lines at the same time. i.e 2 lanes. Easily fitted attachment with 3 x 2" adjustable spray nozzles, and two pneumatic wheels for balance. Fits **Go-Line 30 Marking Machine** as an optional extra. Full range of parts and service available.
